THIS IS CAMEO RECLAIMED TEAK COLLECTION

An elongated hexagon, Cameo is a real eye-catcher.
The teak root wood is known for its water markings and ring-like grains. In this
case thoughts of reptilian scales are not far off.

The organic markings create an exciting dynamic.

RECLAIMED TEAK FROM INDONESIA

THE RECLAIMED TEAK COLLECTION

We source our reclaimed teak in Indonesia.
A much-beloved tropical hard wood we find in the pillars of derelict houses and as root wood on plantations.

The teak comes in various stages of erosion; some much weathered, others not so. Some characterised by a flame grain, others by more organic and erratic water markings.
